

Special Issue

Selected Featured Papers from Entropy Editorial Board Members

Message from the Guest Editor

This Special Issue of *Entropy* is dedicated to recent advances in entropy and information theory research, as well as related applications, and will showcase a selection of exclusive papers from the Editorial Board Members (EBMs) of *Entropy*. It specifically focuses on highlighting recent investigations conducted by our section's EBMs and represents our new section as an attractive open-access publishing platform for entropy and information theoretic research.

Guest Editor

Prof. Dr. Kevin H. Knuth

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
