

## Special Issue

# Artificial Intelligence in Dynamics of Human Cooperation

### Message from the Guest Editors

This Special Issue aims to provide a forum for the exploration of the potential interplay between AI and the dynamics of human collective behavior such as cooperation, coordination, trust and fairness; in particular, the different ways that the advancement of AI might alter the dynamics of human collective behavior, and vice-versa. Both theoretical modeling and behavioral experiment studies are welcome. Some potential topics include (but are not limited to):

- Cooperation in hybrid societies;
- Cooperation with autonomous agents;
- AI-based cooperation engineering;
- Trust and cooperation in human-machine interactions;
- Cognitive mechanisms and cooperation;
- Emergence of the cognitive mechanisms for cooperation;
- Reputation and information processing;
- Cooperation and competition in AI development;
- Incentives design for pro-sociality in human-agent societies;
- AI and social cohesion.

---

### Guest Editors

Dr. The Anh Han

Dr. Simon Powers

Prof. Dr. Luís Moniz Pereira

Dr. Isamu Okada

## About the Journal

### Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

*Entropy* is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
