Special Issue

Information-Theoretic Methods for Trustworthy Machine Learning

Message from the Guest Editors

The Special Issue welcomes the submission of previously unpublished papers on information-theoretic methods for trustworthy machine learning. The scope of this Special Issue includes, but is not limited to,

- fairness
- explainability
- security
- privacy
- reliability
- robustness

Guest Editors

Dr. Sanghamitra Dutta

Department of Electrical and Computer Engineering, University of Maryland, College Park, MD 20742, USA

Prof. Dr. Syed A. Jafar

Electrical Engineering and Computer Science, University of California Irvine, Irvine, CA 92697-2625, USA

Deadline for manuscript submissions

31 October 2025

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth
Department of Physics, University at Albany, 1400 Washington Avenue, Albany, NY 12222, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
