

Special Issue

Machine Learning in Biomedical Data Analysis

Message from the Guest Editors

This Special Issue will accept unpublished original papers and comprehensive reviews focused on (but not restricted to) the following research areas: deep learning models applied on biomedical data; analysis of medical image data; high throughput sequencing data analysis; multi-omics data analysis; complex biological network; machine learning in precision medicine; medical data processing; drug design and discovery; and computational intelligence in machine learning methods applied on biomedical data.

Guest Editors

Prof. Dr. Xiaobo Li

Prof. Dr. Dexing Kong

Prof. Dr. Changjun Zhou

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue,
Albany, NY 12222, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
