

## Special Issue

# Statistical Machine Learning with High-Dimensional Data and Image Analysis

### Message from the Guest Editor

This Special Issue aims to be a forum for the presentation of new techniques of statistical machine learning for high-dimensional data. In particular, the analysis and interpretation of real-world data or images based on machine learning or deep learning fall within the scope of this Special Issue. Keywords: statistical machine learning; high-dimensional data; image processing; data mining; pattern recognition; deep learning; big data; computer vision; multimedia

### Guest Editor

Dr. Lei Wang

## About the Journal

### Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

*Entropy* is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

---

### Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue,  
Albany, NY 12222, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
