# Special Issue

# Modern Trends in Sociophysics

## Message from the Guest Editors

We encourage you to discuss what should define modern sociophysics, what are the most urgent tasks and what are the greatest weaknesses of sociophysics and social agent-based modeling. We do not limit this volume to specific topics, for trends come and go. Instead, we strongly encourage you to consider your research in a wider context and share your reflections on the wider field. Keywords: sociophysics; agent-based modeling; multilayer and temporal networks; opinion dynamics; spatial segregation; dissemination of culture; crowd behavior

## Guest Editors

Dr. Krzysztof Malarz

Faculty of Physics and Applied Computer Science, AGH University of Science and Technology, 30-059 Kraków, Poland

Prof. Dr. Katarzyna Sznajd-Weron

Department of Theoretical Physics, Wrocław University of Science and Technology, 50-370 Wrocław, Poland

# About the Journal

## Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

*Entropy* is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

## Editor-in-Chief

Prof. Dr. Kevin H. Knuth
Department of Physics, University at Albany, 1400 Washington Avenue, Albany, NY 12222, USA

## Author Benefits

**Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:**

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

**Journal Rank:**

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
