Special Issue

Advances in Thermodynamics

Message from the Guest Editors

Entropy is a key concept in thermodynamics. We decide to expand Entropy journal to cover thermodynamics in general also. All papers on thermodynamics, thermal physics, thermochemistry, heat transfer are invited for consideration and publication in this special issue. In future, a section "Thermodynamics" will be set up.

Guest Editors

Prof. Dr. Ismo T. Koponen
Department of Physics, University of Helsinki, FI-00014 Helsinki, Finland

Dr. Shu-Kun Lin

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth
Department of Physics, University at Albany, 1400 Washington Avenue, Albany, NY 12222, USA

Author Benefits

Open Access:
free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:
indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:
JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
