Special Issue

Information Theory and Language

Message from the Guest Editors

In this Special Issue, we invite researchers working at the interface of information theory and natural language to present their original and recent developments. Possible topics include but are not limited to the following:

- Applications of information-theoretic concepts to the research of natural language(s);
- Mathematical work in information theory inspired by natural language phenomena;
- Empirical and theoretical investigation of quantitative laws of natural language;
- Empirical and theoretical evaluation of statistical language models.

Guest Editors

Dr. Łukasz Dębowski

Institute of Computer Science, Polish Academy of Sciences, ul. Jana Kazimierza 5, 01-248 Warszawa, Poland

Dr. Christian Bentz

1. URPP Language and Space, University of Zürich, Freiestrasse 16, CH-8032 Zürich, Switzerland
2. DFG Center for Advanced Studies, University of Tübingen, Rümelinstraße 23, D-72070 Tübingen, Germany

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth
Department of Physics, University at Albany, 1400 Washington Avenue, Albany, NY 12222, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
