

Special Issue

Quantum Communications Networks & Cryptography: From Devices to Industrial Practice

Message from the Guest Editors

We look forward to receiving outstanding contributions dealing with the following topics:

- Novel protocols and systems in quantum communications;
- Quantum key distribution and quantum communications networks;
- Long distance and satellite quantum networks;
- Standardization in quantum communications;
- Security and certification of quantum communication networks;
- Integration of quantum communications in traditional communication networks;
- Hybrid quantum and postquantum security;
- Quantum network deployment policies;
- Quantum network applications.

Guest Editors

Prof. Dr. Vicente Martin

About the Journal

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue,
Albany, NY 12222, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
