Environmental Engineering,
University of Pittsburgh,
Pittsburgh, PA 15261, USA

Dr. He Li

Department of Sciences and
Informatics, Muroran Institute of
Technology, Muroran 050-8585,
Japan

Deadline for manuscript
submissions:

closed (3 September 2020)

Message from the Guest Editors

Environmental changes define the disturbances caused to the environment by human influences or due to natural imbalances. Any changes to the environment adversely affect biodiversity and can disrupt the equilibrium between nature and humans. Changes to the environment can occur due to various natural processes such as a volcanic eruption, forest fire, soil erosion, earthquakes, etc. and due to various human activities such as pollution, climate change, deforestation, and many more.

The topics of interest for the Special Issue include but are not limited to the following:

- Sustainable policies and strategy plans to effectively deal with environmental change adaption and mitigation processes;
- Fire in the environment, effective strategic plans to prevention, causes, impacts, and management;
- Effective measures to water and air quality management in urban areas;
- Sustainable management practices to increases air quality measures with reduced harmful gases;
- Innovative technologies to prevent land, air, and water pollution and sustainable developments;
- New trend in environmental governance to soil degradation and restoration processes;

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [PubAg](#), [AGRIS](#), [GeoRef](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
