## Technologies for Sustainable Environmental Systems

Guest Editors:

**Prof. Dr. Yu-Pin Lin**

Department of Bioenvironmental  
Systems Engineering, National  
Taiwan University, No. 1, Sec. 4,  
Roosevelt Road, Taipei 10617,  
Taiwan

**Dr. Delia B. Senoro**

School of Civil, Environmental  
and Geological Engineering,  
Mapua University, Manila,  
Philippines

Deadline for manuscript  
submissions:

**closed (31 December 2018)**

### Message from the Guest Editors

A sustainable environmental system is a condition where there is a continuous interaction of various ecosystems containing biotic and abiotic components. This condition is very complex, which requires an understanding of the intricate environmental conditions of unidentical environments. The biotic component of the micro-macro environment, and how it interacts with the abiotic component, makes the conditions complex. Hence, progressive development of technologies to aid in understanding the dynamic anthropogenic activities that affect the micro-macro environment is important. Harvesting and integrating existing models, and developing new techniques and tools to provide applications and solutions for complex environmental system conditions are the focus of this Special Issue.

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Sergio Ulgiati**

1. Department of Science and  
Technology, Parthenope  
University of Naples, Centro  
Direzionale, Isola C4, 80143  
Napoli, Italy  
2. School of Environment, State  
Key Joint Laboratory of  
Environment Simulation and  
Pollution Control, Beijing Normal  
University, No. 19 Xijiekouwai  
Street, Beijing 100875, China

## Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus**, **ESCI (Web of Science)**, **PubAg**, **AGRIS**, **GeoRef**, and **other databases**.

**Journal Rank:** JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
