Message from the Guest Editors

Tourism causes not only global warming but also environmental or ecological degradation. Accordingly, reducing the impact of tourism on the environment has become an important issue. A framework for assessing theoretical model and management strategies for sustainable tourism that includes interactions among tourism, biodiversity, and local residents and stakeholders is thus required.

This Special Issue will present a wide range of papers on the environmental impacts of tourism from the field of natural and social science. Papers that develop state-of-the-art methods for assessing the pro-environmental theoretical models of tourists, new frameworks for managerial implications, such as partnerships among residents and stakeholders, and methods for evaluating and monitoring environmental impacts with a view to promoting sustainable tourism, are all welcomed.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [AGRICOLA](#), [AGRIS](#), [GeoRef](#), and many [other databases](#).

Journal Rank: [CiteScore](#) - Q1 (*Ecology, Evolution, Behavior and Systematics*)
