

Special Issue

Occupational Exposure and Its Impacts on Environmental Health

Message from the Guest Editors

Work-related activities impact human health and the environment, often negatively affecting environmental health. In this context, occupational exposure to pollutants and xenobiotics threatens worker health and constitutes a serious public health issue. Therefore, generating robust scientific evidence is crucial for informing policymakers and regulatory bodies and for developing effective protection strategies for human health and the environment.

This Special Issue aims to collect current, high-quality information on the relationship between occupational exposure and environmental health to enhance understanding of this topic. Specifically, we seek studies that assess the impact of occupational exposure on human health through risk assessment or biomonitoring approaches. Methodological papers proposing innovative, rapid, and sustainable techniques for identifying and measuring pollutants in biological or environmental matrices are also welcome. Finally, the emergence of novel pollutants raises significant concern; thus, research enabling rapid detection, thorough risk evaluation, and timely dissemination of findings is encouraged to help prevent or mitigate associated threats.

Guest Editors

Dr. Riccardo Mastrantonio

Dr. Loreta Tobia

Dr. Mario Muselli

Prof. Dr. Matteo Vitali

Prof. Dr. Claudiu T. Lungu

Deadline for manuscript submissions

15 December 2026

About the Journal

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Sergio Ulgiati

1. Department of Science and Technology, Parthenope University of Naples, Centro Direzionale, Isola C4, 80143 Napoli, Italy

2. School of Environment, State Key Joint Laboratory of Environment Simulation and Pollution Control, Beijing Normal University, No. 19 Xijiekouwai Street, Beijing 100875, China

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
