

## Special Issue

# Anthropogenic Beach Litter and Impact on Habitats

### Message from the Guest Editors

Many of the littoral habitats are critical to the survival of several species; therefore, the number of studies investigating the impact of beach litter on habitats is steadily increasing. These studies show interesting interdisciplinary collaborations between biologists, botanists, chemists, eco-toxicologists, and environmental scientists. This Special Issue aims to evaluate the impact of anthropogenic litter present in marine, lake, and river beaches on the functionality of ecosystems. The main goal of this Special Issue is to answer questions such as: 1) How does beach litter affect the environment? 2) Is there a relationship between beach litter and biodiversity dynamics? 3) How can we measure/determine the impact of beach litter on different habitats? 4) What concrete actions can we take to reduce the impact of beach litter?

### Guest Editors

Prof. Dr. Loris Pietrelli

Legambiente, Scientific Committee, Via Salaria 403, 00199 Rome, Italy

Dr. Patrizia Menegoni

ENEA Centro Ricerche Casaccia, Rome, Italy

### Deadline for manuscript submissions

closed (31 December 2020)

## About the Journal

### Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

---

### Editor-in-Chief

Prof. Dr. Sergio Ulgiati

1. Department of Science and Technology, Parthenope University of Naples, Centro Direzionale, Isola C4, 80143 Napoli, Italy

2. School of Environment, State Key Joint Laboratory of Environment Simulation and Pollution Control, Beijing Normal University, No. 19 Xijiekouwai Street, Beijing 100875, China

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
