

Special Issue

Unlocking Circularity for Active Environmental Bio-Packaging Solutions

Message from the Guest Editors

This Special Issue seeks cutting-edge research on sustainable active bio-packaging derived from agri-food waste, exploring its environmental applications.

In line with our multidisciplinary approach, we invite contributions on innovative technologies for extracting and processing useful extracts, compounds, and polymers for active packaging, as well as studies evaluating packaging films' functionality, usability, and consumer perception.

We welcome research on edible films and coatings as carriers of living microorganisms, assessing their environmental impact regarding pollution prevention and biodegradability. Additionally, we are interested in studies modeling performance and degradation, analyzing the release of active compounds, and examining the implications for ecosystem services, biodiversity, and the circular economy, alongside relevant policies and economic aspects. We encourage submissions of experimental, theoretical, and practical findings, with detailed data and methodologies to enhance reproducibility and advance research in this field towards a more sustainable future. This Special Issue is supported by METROFOOD-IT.

Guest Editors

Dr. Gianluca De Rinaldis

Dr. Senem Kamiloglu

Dr. Tugba Ozdal

Deadline for manuscript submissions

25 October 2026

About the Journal

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Sergio Ulgiati

1. Department of Science and Technology, Parthenope University of Naples, Centro Direzionale, Isola C4, 80143 Napoli, Italy
2. School of Environment, State Key Joint Laboratory of Environment Simulation and Pollution Control, Beijing Normal University, No. 19 Xijiekouwai Street, Beijing 100875, China

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
