

## Special Issue

# Environmental Impact Assessment

### Message from the Guest Editor

Environmental Impact Assessment (EIA) is one of the key process of the preventive environmental approach, mandatory to a full set of countries and projects. Environmental Impact allows developers and decision-makers to identify the impact, define measures, and select alternatives to a full set of projects in order to have better integration in the environment and the support integrated search of sustainable development. This Special Issue invites research papers from a wide range of environmental impact issues to present articles emphasizing: (1) new approaches and cases of applications of EIA; (2) project impact alternatives selection; (3) define environmental baseline (GIS and others) and environmental evolution without project; (4) impact identification, prevision and assessment; (5) integration of biodiversity, global warming, risk analysis and other environmental factors; (6) feasibility analysis of environmental measures; (7) environmental public consultation and governance; (8) efficiency of environmental impact assessment processes; and (9) link between strategical environmental assessment, EIA and sustainability.

### Guest Editor

Dr. Manuel Duarte Pinheiro

CEris—Civil Engineering Research and Innovation for Sustainability,  
Department of Civil Engineering, Architecture and Georesources,  
Lisbon University, Av. Rovisco Pais, 1, 1049-001 Lisboa, Portugal

### Deadline for manuscript submissions

closed (30 November 2017)

## About the Journal

### Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

---

### Editor-in-Chief

Prof. Dr. Sergio Ulgiati

1. Department of Science and Technology, Parthenope University of Naples, Centro Direzionale, Isola C4, 80143 Napoli, Italy

2. School of Environment, State Key Joint Laboratory of Environment Simulation and Pollution Control, Beijing Normal University, No. 19 Xijiekouwai Street, Beijing 100875, China

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
