

## Special Issue

# Environmental Risk and Climate Change II

### Message from the Guest Editor

Building on the success of the June 2022 Bonn Climate Change Conference, there is a need for more ambitious climate action, deeper cuts in greenhouse gas emissions, and enhanced resilience to adapt to the effects of climate change.

While governments agreed a package of decisions at the Glasgow Climate Pact at COP26 (the 2021 UN Climate Change Conference), the challenges linked to climate change require a multidisciplinary approach to manage climate change and related environmental, social, and financial risk, including strategies to provide financial support for developing countries, to mitigate the impact of climate change, and to adapt to global temperature rise. In order to pave the way for full implementation of the Paris Agreement, this Special Issue is seeking original papers that describe recent advances in various environmental risk issues in relation to climate shifts.

## About the Journal

### Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
