

Special Issue

Emerging Contaminants in Wildlife Toxicology

Message from the Guest Editors

The field of wildlife toxicology continues to evolve with more emphasis on emerging contaminants as we continue to learn more about the sensitivity and effects on certain species of wildlife that are exposed to environmental contaminants. This special issue will address emerging environmental contaminants in wildlife toxicology and will consider a variety of species in different parts of the world as related to impacts of contaminants. As we continue to learn more about the effects of environmental contaminants on various species in wildlife around the world, the issue of emerging environmental contaminants will continue to challenge scientists to better understand the role of such contamination to wildlife health and biodiversity.

Guest Editors

Dr. Ronald J. Kendall

Wildlife Toxicology Laboratory, Texas Tech University at Lubbock, Lubbock, USA

Prof. Dr. Thomas Lacher

Department of Wildlife and Fisheries Sciences at TexasA&M University, College Station, TX 77843, USA

About the Journal

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Sergio Ulgiati

1. Department of Science and Technology, Parthenope University of Naples, Centro Direzionale, Isola C4, 80143 Napoli, Italy

2. School of Environment, State Key Joint Laboratory of Environment Simulation and Pollution Control, Beijing Normal University, No. 19 Xijiekouwai Street, Beijing 100875, China

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
