

Special Issue

Environmental Impacts of Tourism: Theoretical and Managerial Frameworks for Sustainable Tourism

Message from the Guest Editors

Tourism causes not only global warming but also environmental or ecological degradation. Accordingly, reducing the impact of tourism on the environment has become an important issue. A framework for assessing theoretical model and management strategies for sustainable tourism that includes interactions among tourism, biodiversity, and local residents and stakeholders is thus required.

This Special Issue will present a wide range of papers on the environmental impacts of tourism from the field of natural and social science. Papers that develop state-of-the-art methods for assessing the pro-environmental theoretical models of tourists, new frameworks for managerial implications, such as partnerships among residents and stakeholders, and methods for evaluating and monitoring environmental impacts with a view to promoting sustainable tourism, are all welcomed.

Guest Editors

Prof. Dr. Tsung Hung Lee

About the Journal

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Sergio Ulgiati

1. Department of Science and Technology, Parthenope University of Naples, Centro Direzionale, Isola C4, 80143 Napoli, Italy

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
