Message from the Guest Editors

Dear Colleagues,

This Special Issue “Adding value to agro-forest and industrial wastes by bioethanol production” will focus on different feedstocks, on pretreatments and hydrolyses for releasing simple sugars, on different applied microorganisms and on different configurations for ethanol fermentation processes.

As you probably know, the journal *Fermentation* (ISSN2311-5637) has been accepted for inclusion in the Science Citation Index Expanded (SCIE), and it would have a first projected Impact Factor around 4.0 this June 2021. For us would be a pleasure to count on a review or research article on this topic from your team, and you will be waived with 50% of the APCs (Article processing charges) of this Open Access journal (current APCs 1400 CHF Swiss Francs). Please note that for papers submitted after 30 June 2021 an APC of 1600 CHF applies. The submission deadline is 31 October 2021, if you need more time you can contact the Managing Editor Sherry Duan (sherry.duan@mdpi.com) directly.

Message from the Editor-in-Chief

Welcome to a new open access journal, Fermentation, which meets the growing need for a high quality peerreviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make Fermentation a leader in its field. Your contributions are vital for the success of this new journal. Proposals for editing a special issue for a particular topical area are always welcome.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biotechnology & Applied Microbiology*) / CiteScore - Q2 (*Plant Science*)
