Engineering, Faculty of Sciences,
University of La Coruña, La
Coruña, Spain

Deadline for manuscript
submissions:
closed (31 March 2022)

Message from the Guest Editors

This Special Issue focuses on the optimization of bioprocesses for the removal of pollutants from industrial biogenic gas emissions, waste, and wastewater, and also to valorize waste, whenever possible, through their bioconversion into useful added-value products. Both Research articles and review papers can be included in this special issue.

As you probably know, the journal *Fermentation* (ISSN2311-5637) has been accepted for inclusion in the Science Citation Index Expanded (SCIE), and it would have a first projected Impact Factor around 4.0 this June 2021. For us would be a pleasure to count on a review or research article on this topic from your team, and you will be **waived with 50% of the APCs** (Article processing charges) of this Open Access journal (current APCs 1400 CHF Swiss Francs). Please note that for papers submitted after **30 June 2021** an APC of 1600 CHF applies. The submission deadline is **31 October 2021**, if you need more time you can contact the Managing Editor Sherry Duan (sherry.duan@mdpi.com) directly.

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Badal C. Saha

Retired, National Center for
Agricultural Utilization Research,
USDA-ARS, Peoria, IL, USA

Message from the Editor-in-Chief

Welcome to a new open access journal, Fermentation, which meets the growing need for a high quality peerreviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make Fermentation a leader in its field. Your contributions are vital for the success of this new journal. Proposals for editing a special issue for a particular topical area are always welcome.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biotechnology & Applied Microbiology*) / CiteScore - Q2 (*Plant Science*)
