

Special Issue

10th Anniversary of Fermentation: Feature Papers in the "Fermentation for Food and Beverages" Section

Message from the Guest Editor

As we celebrate the 10th anniversary of *Fermentation*, it is with great excitement that we announce the upcoming Special Issue titled "10th Anniversary of Fermentation: Feature Papers in the 'Fermentation for Food and Beverages' Section". Fermentation is a traditional biotechnological process that transforms raw food materials into nutritious and enjoyable products. This process enhances the flavor, aroma, and texture of foods while also improving their nutritional value and digestibility. Fermented foods and beverages have been an integral part of human diets across various cultures and are gaining popularity due to their health benefits and natural appeal. Moreover, the food industry is encouraged to adopt sustainable practices and view fermentation as a natural strategy for producing functional foods with minimal environmental impact. Continued exploration of traditional fermentation methods and their adaptation to modern needs is likely to expand the functional food market.

About the Journal

Message from the Editor-in-Chief

Welcome to a new open access journal, Fermentation, which meets the growing need for a high quality peerreviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make Fermentation a leader in its field. Your contributions are vital for the success of this new journal. Proposals for editing a special issue for a particular topical area are always welcome.

Editor-in-Chief

Dr. Badal C. Saha
Retired, National Center for Agricultural Utilization Research, USDA-ARS, Peoria, IL, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biotechnology and Applied Microbiology) /
CiteScore - Q2 (Plant Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
