# **Special Issue**

# Advances in Fermented Foods and Beverages

## Message from the Guest Editor

Fermented foods and beverages have been integral to the human diet since the dawn of civilization. In this Special Issue, we invite researchers to contribute to enhancing the existing literature with original research and review articles on the following topics:

Investigations of the historical significance of fermentation;

Characterizations of microbial and enzymatic processes;

The exploration of factors contributing to consumer preferences for traditional and health-conscious food products;

The development of new fermented beverages or foods; Fermentation of by-products derived from food processing industries;

The identification and characterization of bioactive compounds released during fermentation process.

## **About the Journal**

## Message from the Editor-in-Chief

Welcome to a new open access journal, Fermentation, which meets the growing need for a high quality peerreviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make Fermentation a leader in its field. Your contributions are vital for the success of this new journal. Proposals for editing a special issue for a particular topical area are always welcome.

## **Editor-in-Chief**

Dr. Badal C. Saha

Retired, National Center for Agricultural Utilization Research, USDA-ARS, Peoria, IL, USA

## **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPlus / SciFinder, and other databases.

## Journal Rank:

JCR - Q2 (Biotechnology and Applied Microbiology) / CiteScore - Q1 (Plant Science)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2025).
