

Special Issue

Wine and Beer Fermentation, 2nd Edition

Message from the Guest Editor

In the evolution of the food and beverage sector, alcoholic beverages, mainly wine and beer, provide higher levels of consumer satisfaction because of their extraordinary mix of history, culture, wellbeing, and rural and economic impacts. Nevertheless, after thousands of years, consumers and entrepreneurial opportunities are pushing research to higher levels of quality, and there is a need for novel scientific information to maintain the control of the entire food chain, from raw materials to consumption, as well as processing and shelf life. Fermentation is the core processing step, whereby the chemical and physical features of wine and beer interact with the complex metabolism of relevant microorganisms. Therefore, further scientific information on the management and results of wine and beer fermentation are welcomed in this Special Issue. The microbial management of low-alcohol or no-alcohol wines and beers is also a welcomed.

About the Journal

Message from the Editor-in-Chief

Welcome to an open access journal, *Fermentation*, which meets the growing need for a high quality peer-reviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this journal and look forward to working with you to make *Fermentation* a leader in its field. Your contributions are vital for the success of this journal. Proposals for editing a special issue for a particular topical area are always welcome.

Editor-in-Chief

Prof. Dr. Christian Kennes
Department of Chemical Engineering, Faculty of Sciences, University of La Coruña, La Coruña, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biotechnology and Applied Microbiology) /
CiteScore - Q1 (Plant Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
