

Special Issue

Feature Review Papers in Industrial Fermentation, 2nd Edition

Message from the Guest Editors

This Special Issue aims to collect high-quality review papers in all fields of industrial fermentation. We encourage researchers from related fields to contribute review papers highlighting the latest developments in industrial fermentation (including fermentation for the production of chemicals, materials, biofuels, and pharmaceuticals; environmental bioprocesses and the biodegradation of pollutants; and biorefinery), or to invite relevant experts and colleagues to do so. Full-length comprehensive reviews will be preferred. This Special Issue aims to share these scientific findings as widely as possible.

Guest Editors

Prof. Dr. Xiaoqing Lin

Dr. Konstantinos G. Kalogiannis

Dr. Diomi Mamma

Dr. Alessio Siciliano

About the Journal

Message from the Editor-in-Chief

Welcome to an open access journal, *Fermentation*, which meets the growing need for a high quality peer-reviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this journal and look forward to working with you to make *Fermentation* a leader in its field. Your contributions are vital for the success of this journal. Proposals for editing a special issue for a particular topical area are always welcome.

Editor-in-Chief

Prof. Dr. Christian Kennes
Department of Chemical Engineering, Faculty of Sciences, University of La Coruña, La Coruña, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biotechnology and Applied Microbiology) /
CiteScore - Q1 (Plant Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
