

Special Issue

Feature Review Papers in Microbial Metabolism, Physiology & Genetics, 2nd Edition

Message from the Guest Editor

This Special Issue aims to collect high-quality review papers from all fields of microbial metabolism, physiology, and genetics. We encourage researchers from related fields to contribute review papers which highlight the latest developments in microbial metabolism, physiology, and genetics (including transcriptomics, proteomics, and genomics, as well as integrated approaches), or rather to invite relevant experts and colleagues to do so. Full-length comprehensive reviews will be preferred. Let us advance and share the science as widely as possible. Prof. Dr. Ronnie Willaert

About the Journal

Message from the Editor-in-Chief

Welcome to a new open access journal, Fermentation, which meets the growing need for a high quality peerreviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make Fermentation a leader in its field. Your contributions are vital for the success of this new journal. Proposals for editing a special issue for a particular topical area are always welcome.

Editor-in-Chief

Prof. Dr. Christian Kennes
Department of Chemical Engineering, Faculty of Sciences, University of
La Coruña, La Coruña, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biotechnology and Applied Microbiology) /
CiteScore - Q1 (Plant Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2025).
