

Special Issue

10th Anniversary of *Fermentation*: Feature Papers in Section “Microbial Metabolism, Physiology & Genetics”

Message from the Guest Editors

On the 10th anniversary of *Fermentation*, we are pleased to announce a Special Issue entitled “10th Anniversary of Fermentation: Feature Papers in Section “Microbial Metabolism, Physiology & Genetics”. Over the years, this section of *Fermentation* has addressed numerous interdisciplinary topics related to microorganisms and their biotechnological applications. This Special Issue aims to provide further contributions to these topics through the interception, development, and integration of the most recent knowledge on the metabolic, genetic, and physiological fields of microbiology, with particular focus on the applicative use of microorganisms. We especially welcome contributions, both original research and reviews, that address emerging technologies, interdisciplinary approaches, and sustainable practices. The topics include all those cited above but are not limited to them. On this occasion, we would also like to receive contributions related to technological advances aimed at the study of uncultured microorganisms, a large and unexplored resource, which could open up new frontiers in the field of microbial biotechnology.

Guest Editors

Prof. Dr. Giovanni Vigliotta

Dipartimento di Chimica e Biologia “A. Zambelli”, Università degli Studi di Salerno, Via Giovanni Paolo II, 132, 84084 Fisciano, SA, Italy

Prof. Dr. Rosanna Tofalo

Department of Bioscience and Technology for Food, Agriculture and Environment, University of Teramo, Via Balzarini 1, 64100 Teramo, Italy

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Welcome to a new open access journal, Fermentation, which meets the growing need for a high quality peerreviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make Fermentation a leader in its field. Your contributions are vital for the success of this new journal. Proposals for editing a special issue for a particular topical area are always welcome.

Editor-in-Chief

Prof. Dr. Christian Kennes
Department of Chemical Engineering, Faculty of Sciences, University of
La Coruña, La Coruña, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biotechnology and Applied Microbiology) /
CiteScore - Q1 (Plant Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.5 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2025).
