

## Special Issue

# Advances in Electrochemical Power Sources Based on Fibers

### Message from the Guest Editor

This Special Issue aims to attract all researchers working in this research field and will collect new findings and recent advances in electrochemical power sources based on fibers and future applications of devices. Research manuscripts, as well as a limited number of review manuscripts, are encouraged in the following areas:

- Fuel cells;
- Batteries;
- Capacitors;
- Energy storage;
- Sustainable energy and engineering systems;
- Structure-properties relationship;
- Electrochemical solar energy conversion;
- Environmental effects;
- Applications;
- Recycling.

---

### Guest Editor

Dr. Ioannis Kartsonakis

Physical Chemistry Laboratory, School of Chemistry, Aristotle University of Thessaloniki, Thessaloniki, Greece

---

### Deadline for manuscript submissions

closed (29 February 2024)

## About the Journal

### Message from the Editor-in-Chief

*Fibers* is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

---

### Editor-in-Chief

Prof. Dr. Martin J. D. Clift

In Vitro Toxicology Group, Institute of Life Sciences 1, Swansea  
University Medical School (SUMS), Swansea SA2 8PP, Wales, UK

---

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei  
Compendex, PubAg, CAPlus / SciFinder, Inspec, and other  
databases.

#### Journal Rank:

JCR - Q2 (Materials Science, Multidisciplinary) / CiteScore  
- Q1 (Civil and Structural Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 23.3 days after  
submission; acceptance to publication is undertaken in 5.8  
days (median values for papers published in this journal in  
the first half of 2025).
