

Special Issue

Sustainable High Performance Fiber-Reinforced Cementitious Composites (HPFRCCs) and Fiber-Reinforced Polymers (FRPs)

Message from the Guest Editors

The topics of this Special Issue include but are not limited to the durability and mechanical properties of sustainable HPFRCCs and FRPs containing recycled and waste-based materials, HPFRCCs and FRPs that are manufactured with different types of fibers (including recycled and natural fibers), HPFRCCs and FRPs containing nanomaterials and the long-term properties of HPFRCCs and FRPs, life-cycle assessment of sustainable HPFRCCs and FRPs, and applications of sustainable FRPs. Both original contributions and reviews are welcome.

Guest Editors

Dr. Aliakbar Gholampour

College of Science and Engineering, Flinders University, Tonsley, SA, Australia

Prof. Dr. Tuan Ngo

Advanced Protective Technologies for Engineering Structures(APTES) Group, University of Melbourne, Melbourne, Australia

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editor-in-Chief

Fibers is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

Editor-in-Chief

Prof. Dr. Martin J. D. Clift

In Vitro Toxicology Group, Institute of Life Sciences 1, Swansea University Medical School (SUMS), Swansea SA2 8PP, Wales, UK

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, PubAg, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Multidisciplinary) / CiteScore - Q1 (Civil and Structural Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.1 days after submission; acceptance to publication is undertaken in 5.7 days (median values for papers published in this journal in the second half of 2025).
