

Topical Collection

Review Papers of *Fibers*

Message from the Collection Editor

This Collection aims to collect scientific and technological developments and the latest research hot topics in the field of "fibers". The main article type will be focused on "review". The following topics are welcomed, but not limited to:

- Polymer fibers;
- Carbon fibers;
- Nanofibers;
- Optical fibers;
- Glass fibers;
- Nanotubes;
- Plant fibers;
- Cellulose;
- Animal fibers;
- Mineral fibers;
- Synthetic fibers;
- Textile fibers;
- Fibers reinforcement;
- Other topics related to fibers.

Kind regards, Prof. Dr. Martin Clift

About the Journal

Message from the Editor-in-Chief

Fibers is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

Editor-in-Chief

Prof. Dr. Martin J. D. Clift

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, PubAg, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Multidisciplinary) / CiteScore - Q1 (Civil and Structural Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.3 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the first half of 2025).
