

Special Issue

Boreal Fire-Fuels Interactions

Message from the Guest Editors

The goal of this Special Issue is to increase the understanding of fire-fuel interactions in Boreal ecosystems in support of improved models and approaches for protecting people and values from negative fire impacts and promoting ecosystem health and resilience. We invite submission of articles on any topic related to fire-fuel interactions in Boreal forests, including but not limited to:

- Wildfire and experimental fire case reports
- Fire and insect or disease outbreaks
- Fuel characterization and mapping
- Fuel treatment and vegetation management
- Fire behavior models and simulation
- Landscape fire-fuel dynamics

About the Journal

Message from the Editor-in-Chief

Fire is an international open-access journal about the science, policy, and technology of fires and how they interact with communities and the environment. *Fire* seeks to provide a forum to help the fire science community convey how we can live with fire in a changing world. *Fire* seeks submissions from interdisciplinary studies that take a pyrogeography perspective of fires occurring in natural, cultural, and industrial landscapes and how they interact with communities in the science-policy interface. *Fire's* Editorial Board are widely recognized international leaders. The journal emphasizes quality and innovation and has a rigorous peer-review process. I strongly recommend *Fire* for the rapid publication of your innovative research publications and case studies.
