Biology and Ecology of Eels

Guest Editor:

Dr. Jose Martin Pujolar

Centre for Ocean Life, National
Institute of Aquatic Resources,
Technical University of Denmark,
Kongens Lyngby, Denmark

Deadline for manuscript
submissions:

closed (20 October 2023)

Message from the Guest Editor

Dear Colleagues,

We are currently inviting submissions of papers that address important questions to progress our knowledge and understanding of the biology and ecology of anguillid eels and ultimately contribute to a sustainable management solution of their populations in a global context. Anguillid eels have fascinated mankind for centuries due to their complex life cycles and singular migration loops between freshwater and marine habitats. For over 30 years, there has been growing concern about the status of most anguillid eels, with declining stocks worldwide due to direct or indirect anthropogenic effects including overfishing, habitat loss, pollution, climate change, parasites and diseases. While considerable progress has been made in recent years to advance research in anguillid eels, there are still gaps in the knowledge, especially in the case of tropical anguillid eels. We invite papers and reviews on multidisciplinary topics in the broad field of biology and ecology, including biodiversity, systematics, phylogeography, population genetics, genomics and evolution.

fishes

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubAg](#), [FSTA](#), and [other databases](#).

Journal Rank: JCR - Q1 (Marine and Freshwater Biology)
