## Statistical Analysis in Fisheries Science and Aquaculture

Guest Editors:

**Prof. Dr. George Minos**

1. Department of Nursing,  
International Hellenic University,  
P.O. Box 141, 57400 Thessaloniki,  
Greece

2. Director, Laboratory of Biology  
& Histology, Microscopy & Image  
Analysis, Systematics & Biometry,  
International Hellenic University,  
P.O. Box 141, 57400 Thessaloniki,  
Greece

**Dr. Foivos Alexandros  
Mouchlianitis**

Researcher, Laboratory of  
Biology & Histology, Microscopy  
& Image Analysis, Systematics &  
Biometry, International Hellenic  
University, P.O. Box 141, 57400  
Thessaloniki, Greece

Deadline for manuscript  
submissions:

**30 May 2024**

### Message from the Guest Editors

Dear Colleagues,

Statistics have long been wedded with fisheries science to interpret data and make well-informed decisions. Throughout the years, an increasingly diverse array of statistical and data management tools has emerged, as have their potential applications. This Special Issue focuses on the statistical methods and tools used for the analyses of data on fisheries science as well as the aquaculture of fishes and other aquatic organisms. We welcome applications on morphometrics, age, growth, otolith and scale morphology, reproduction, phylogenetics, taxonomy, phenotypic plasticity, fisheries stock identification, fisheries management, and aquaculture research. In this issue, emphasis is placed on technological and analytical advancements in data analysis, including image analysis, artificial intelligence tools, new mapping capabilities, etc.

Prof. Dr. George Minos

## Editor-in-Chief

**Prof. Dr. Maria Angeles Esteban**

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

## Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubAg](#), [FSTA](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Marine & Freshwater Biology*)
