

Special Issue

Genetic Mechanism and Genetic Selection of Economic Traits in Aquatic Animals

Message from the Guest Editor

We have launched a special issue titled "Genetic Mechanism and Genetic Selection of Economic Traits in Aquatic Animals", which focuses on the use of novel multi-omics technologies to address the genetic mechanisms of important economic traits in aquaculture animals, as well as the development or application of complex genetic selection techniques in aquaculture animal breeding. This field has become a hot topic in the field of aquatic genetics and breeding, and will continue to receive attention in the future. The purpose of this special issue is to contribute to the development of aquatic genetic breeding by extensively collecting high-quality works in this field.

About the Journal

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
