

## Special Issue

# Effects of Dietary Components on the Gut Health of Fishes

### Message from the Guest Editor

**Special Issue Information** This Special Issue aims to make a contribution to the current knowledge of how dietary components, singly or in combination with other endo- or exogenous factors, can affect the gut health and function of established, emerging, or candidate aquaculture fish species. We are pleased to solicit manuscripts pertaining to original research, mini and full reviews, short communications, as well as perspectives addressing topics such as

- Fish gut health and alternative feed raw materials;
- Nutritional requirements and fish gut health;
- Effects of functional feed components on fish gut health and function;
- Fish gut health and the changing environment;
- Effects of dietary components on gut microbiota;
- Effects of dietary components on gut mucosal health and immunology;
- Utilization of omics technologies to elucidate fish gut health and function.

## About the Journal

### Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

#### Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
