Special Issue

Diversification of Aquaculture with New Fish Species

Message from the Guest Editor

Advances in the culture of new species is already available thanks to the research carried out in the last few years. New species such as meagre, amberjack, wreckfish or pikeperch in Europe, stripped trumpeter in Australia, grouper in Asia have been considered. This special issue of Fishes will provide important information about the research carried out with these new species. I am pleased to solicit manuscripts which address any aspect of the above-mentioned species in any of the stages of their life cycles. Keywords:

- new fish
- freshwater fish
- marine fish
- reproduction
- larviculture
- health
- behavior

About the Journal

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of Fishes is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider Fishes for your scientific papers and would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
