

Special Issue

Welfare and Sustainability in Aquaculture

Message from the Guest Editor

Aquaculture must be committed to the sustainability of the productive process and animal welfare. These goals will require the design of feeding strategies that maximize food utilization, reducing food waste. It is a sector of great importance in the food sustainability of the population because the consumption of fish has increased over the years, but the lack of knowledge of some essential factors causes high economic losses. Its main problems are the loss of specimens as a result of feeding problems, stress, and diseases. The aim of this journal is to increase knowledge about animal welfare as well as to increase the sustainability of aquaculture.

About the Journal

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
