

Special Issue

Fish Behaviour

Message from the Guest Editors

Fish are the largest and most diverse group of vertebrates. This diversity is reflected in many biological traits, including behaviour. Understanding fish behaviour may have implications for the way we build dams, ecotourism, aquaculture, fisheries, and other economic and industrial activities. This Special Issue has a broad scope, and intends to capture the diversity of fish behaviour, from its fundamental aspects and underlying mechanisms to the applications of its study. Contributions covering environmental challenges with implications for fish behaviour, such as climate change, ocean acidification, or pollution, are also welcome.

About the Journal

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
