

# Special Issue

## Ornamental Fish

### Message from the Guest Editor

In recent years, the production and scientific research of ornamental fish have become increasingly extensive and have attracted growing attention. To promote the healthy development of the aquatic industry and share the achievements of cutting-edge work, this Special Issue will focus on proceedings in fields such as ornamental fish genetics, modern breeding, artificial propagation, nutrition and feed, disease diagnosis and prevention, aquatic ecology, and water quality regulation. We aim to attract and gather cutting-edge systematic research on ornamental fish.

## About the Journal

### Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), GEOBASE, PubAg, FSTA, and other databases.

#### Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
