

Special Issue

Effects of Nanoplastics and Microplastics on Fish Health

Message from the Guest Editor

This topic focuses on the impact of microplastics and nanoplastics on fish health. The content of this topic is quite extensive, including the rich distribution and risk assessment of microplastics and nanoplastics in fish, as well as the impact of microplastics and nanoplastics on the immune system, growth rate, and reproductive ability of fish. In addition, microplastics and nanoplastics can also affect the health of fish through the food chain. This issue also focuses on the enrichment rule and migration path of microplastics in fish and the synergistic transmission of microplastics to fish pathogens.

About the Journal

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
