

Topical Collection

Fishes in Mediterranean Environments

Message from the Collection Editor

This Topical Collection will publish manuscripts related to any aspect of fish biology, ecology, behavior and conservation in Mediterranean-climate environments of the Mediterranean basin, California, Chile, South Africa, and Australia. Works dealing with fish inhabiting environments marked by a strong seasonality (other than Mediterranean) may also be considered for publication. We will also consider articles focused on organisms other than fishes (e.g., bivalves, crayfishes) if strongly put into the context of the biology of fishes from Mediterranean environments.

About the Journal

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
