

## Special Issue

# Feed and Nutrition Research in Aquaculture

### Message from the Guest Editor

This Special Issue aims to serve as a comprehensive, up-to-date collection on the abovementioned aspects, with a special emphasis on the identification of those aspects already well established and those still requiring further research. I am pleased to solicit manuscripts pertaining to original research, mini and full reviews, short communications, as well as perspectives, which address any aspect of research that includes but is not limited to:

- Experiments aiming to test ingredients in fish diets with a practical perspective within the circular economy;
- Energy and protein requirements of non-carnivorous fish species;
- Evaluation of the potential effect of global warming on the nutritional needs of cultured species;
- Accurate determinations of the nutritional requirements of currently cultured fish species with an impact on the cost of feeding and environmental issues.

### Guest Editor

Prof. Dr. Francisco J. Moyano

Department of Biology and Geology, Engineering School, University of Almería, 04120 Almería, Spain

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

#### Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
