

## Special Issue

# Conservation and Population Genetics of Fishes

### Message from the Guest Editor

The study of the conservation and population genomics of fishes lies in their significant contributions to preserving biodiversity, maintaining ecosystem health, and ensuring sustainable fisheries. This Special Issue seek manuscripts which may include, but are not limited to, the following topics: genetic diversity, gene flow, species delimitation and identification, conservation of endemic and endangered species, and adaptive responses to environmental stress, as well as the tools and techniques used in conservation and population genetics of fishes, etc. This will be a dynamic Special Issue, and articles will be published as soon as the reviewers and editors are ready to accept them, without waiting for the deadline for the entire Special Issue to arrive.

### Guest Editor

Prof. Dr. Dongmei Xiong

Department of Fishery, College of Animal Science and Technology,  
Northwest A&F University, Yangling 712100, China

### Deadline for manuscript submissions

20 January 2026

## About the Journal

### Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

#### Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
