

## Special Issue

# Fisheries and Aquaculture Engineering

### Message from the Guest Editor

The fisheries and aquaculture sector is increasingly being recognized for the essential contribution it can make to global food security and nutrition in the 21st century. Fisheries and aquaculture engineering is a multidisciplinary field of engineering that aims to solve technical problems related to aquatic vertebrates, invertebrates, and algae in salt, brackish and freshwater systems to support the development and innovation in both wild capture fisheries and aquaculture. The Special Issue provides an international forum in the areas of fisheries and aquaculture science, fishing technology, fishing gear, fisheries equipment, and aquaculture facility. Both engineering-based theoretical and practical research articles are welcome, including laboratory and field experimental studies relevant to fisheries and aquaculture engineering.

### Guest Editor

Prof. Dr. Rong Wan

College of Marine Sciences, Shanghai Ocean University, Shanghai 201306, China

### Deadline for manuscript submissions

closed (30 September 2023)

## About the Journal

### Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

#### Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
