

Special Issue

Feeding and Nutrition of Bivalves

Message from the Guest Editors

Bivalves are excellent nutrients for human beings, sharing a large part of the world's aquaculture industry. This Special Issue primarily focuses on, but is not limited to, the bivalves, as well as gastropods and cephalopods, etc. We aim to form a Special Issue concentrated in bivalve feeding, bait, and nutrition. For example, the bivalve feeding mechanism, bivalve bait such as microalgae and microparticle feed, bivalve nutrition such lipid, protein, and carbohydrate, and their response to external factors such as salinity, temperature, and processing. We invite experts in relevant fields to submit compelling research or review articles to form a Special Issue that will contribute to the bivalve industry.

About the Journal

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Marine and Freshwater Biology) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
