Message from the Guest Editors

Dear Colleagues,

Fluid manipulation has emerged as a versatile and powerful platform for fostering multidisciplinary applications in physics, chemistry, biology, engineering, the environment, biomedical engineering, and medicine. Having been burgeoning for decades, fluid manipulation is undergoing a “golden” development age, with novel concepts and technologies continuing to emerge. This Special Issue aims to showcase research papers, communications, and review articles that focus on recent advancements in the fundamentals of fluid manipulation, including, but not limited to, (1) the fundamental understanding of fluid manipulation, (2) the fluid mechanics of innovative fluid manipulation systems, and (3) diverse applications related to fluid manipulation.

Message from the Editor-in-Chief

Fluids (ISSN 2311-5521) is an international journal on all aspects of fluids in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. You are invited to contribute a research article or a comprehensive review for consideration and publication in *Fluids*. The scientific community and the general public have unlimited free access to the content as soon as it is published. Please consider *Fluids* as an exceptional, exciting enterprise ready to reward your trust, attention, and active participation.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (*Mechanical Engineering*)
