Deadline for manuscript
submissions:
closed (30 June 2021)

Message from the Guest Editor

We are inviting submissions to a Special Issue of *Fluids* on the subject area of “Heat Transfer and Fluid Dynamics in Energy Systems.”

Recent advances in numerical and experimental methods have revolutionized the study of flow and heat transfer in various engineering applications, such as electronic devices, fluid delivery systems, power plants, heat exchangers, etc. Accurate prediction of hydrodynamics and thermal transmission in energy systems is very important and, as a result, significant research activity has been devoted to this topic. The motivation for this Special Issue is to present a series of research articles in various areas of both experimental and numerical heat transfer and fluid dynamics studies in different thermal and energy systems.

Message from the Editor-in-Chief

Fluids (ISSN 2311-5521) is an international journal on all aspects of fluids in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. You are invited to contribute a research article or a comprehensive review for consideration and publication in *Fluids*. The scientific community and the general public have unlimited free access to the content as soon as it is published. Please consider *Fluids* as an exceptional, exciting enterprise ready to reward your trust, attention, and active participation.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (*Mechanical Engineering*)
