Deadline for manuscript  
submissions:

**closed (31 January 2019)**

### Message from the Guest Editor

Dear Colleagues,

The rigorous framework of nonlinear wave hydrodynamics has its origins in the 18th century. Since then, significant theoretical, numerical, and experimental progress has been made that set the foundations for several applications in ocean engineering and physical oceanography. Recently, the latter also motivated groundbreaking studies investigating rogue and dispersive shock waves in other nonlinear physical media, for instance in optics. This Special Issue aims to discuss recent advances in the interdisciplinary field of nonlinear wave hydrodynamics including solitons, surface gravity waves, internal waves and wave turbulence in applied mathematics, physics and engineering. The collected papers are also directed to discuss modern developments and trends in the accurate modelling and prediction of hydrodynamic wave processes.

## Editor-in-Chief

### Prof. Dr. Mehrdad Massoudi

Department of Biomedical Engineering and Department of Mechanical Engineering, Carnegie Mellon University, Pittsburgh, PA 15213-3890, USA

## Message from the Editor-in-Chief

*Fluids* (ISSN 2311-5521) is an international journal on all aspects of fluids in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. You are invited to contribute a research article or a comprehensive review for consideration and publication in *Fluids*. The scientific community and the general public have unlimited free access to the content as soon as it is published. Please consider *Fluids* as an exceptional, exciting enterprise ready to reward your trust, attention, and active participation.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** Indexed in the Emerging Sources Citation Index (ESCI) - Web of Science and *Inspec* (IET) from Vol. 2. Indexed in Scopus from Vol.3

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 18.3 days after submission; acceptance to publication is undertaken in 5.4 days (median values for papers published in this journal in the second half of 2018).
