

Special Issue

Advances in Hydrodynamics

Message from the Guest Editor

This Special Issue presents the latest achievements in developing theoretical and experimental studies, physical models and computational methods, modelling developments, etc., in hydrodynamic research and its applications. It discloses the research activities in various areas of the hydrodynamic, hydraulic machines, hydropower and pumping. Keywords:

- hydrodynamic
- Hydropower and pump solutions
- Hydraulic
- computational methods and modelling

Guest Editor

Prof. Dr. Helena M. Ramos

Department of Civil Engineering, Architecture and Environment, CERIS, Instituto Superior Técnico, University of Lisbon, 1049-001 Lisbon, Portugal

Deadline for manuscript submissions

closed (1 July 2018)

About the Journal

Message from the Editor-in-Chief

Fluids (ISSN 2311-5521) is an international journal on all aspects of fluids in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. You are invited to contribute a research article or a comprehensive review for consideration and publication in *Fluids*. The scientific community and the general public have unlimited free access to the content as soon as it is published. Please consider *Fluids* as an exceptional, exciting enterprise ready to reward your trust, attention, and active participation.

Editor-in-Chief

Prof. Dr. D. Andrew S. Rees

Department of Mechanical Engineering, University of Bath, Bath BA2 7AY, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Mechanical Engineering)
