

## Special Issue

# Thermophysical Properties of Nanofluids - From Measurement to Interpretation

### Message from the Guest Editors

It is the purpose of this special issue to contribute to an update of thermophysical properties of nanofluids, either reviews, or full papers. All the papers will follow the normal reviewing system of Fluids Journal.

Potential topics include, but are not limited to:

- (1) Nanofluids for nuclear engineering
- (2) Nanofluids for thermal storage
- (3) Molten salts for solar applications
- (4) Soft materials (textiles, food products, body fluids)
- (5) Nanofluids and IoNanofluids (nonaqueous and high temperature)
- (6) New lubricants.

## About the Journal

### Message from the Editor-in-Chief

*Fluids* (ISSN 2311-5521) is an international journal on all aspects of fluids in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. You are invited to contribute a research article or a comprehensive review for consideration and publication in *Fluids*. The scientific community and the general public have unlimited free access to the content as soon as it is published. Please consider *Fluids* as an exceptional, exciting enterprise ready to reward your trust, attention, and active participation.
